

HUMAN ORIGIN, HEALTH AND DISEASE

Distinguished Lecture Series

ORGANIZED BY :

ICAR-NATIONAL BUREAU OF ANIMAL GENETIC RESOURCES

INDIAN SOCIETY OF ANIMAL GENETICS AND BREEDING

**EMINENT
SPEAKER**

A distinguished geneticist, Dr. Kumarswamy Thangaraj has made pioneering contributions to our understanding about complex origin and genetic history of Indian populations. His work has been instrumental in shedding light on the ancient migrations, population interactions, and genetic makeup of the diverse communities of India. Join us for a riveting talk as Dr. Thangaraj delves into the intricacies of human genetics and shares insights from his extensive research journey.

Dr. K. Thangaraj
JC Bose Fellow, CSIR-CCMB,
Hyderabad and Former Director,
Centre for DNA Fingerprinting
and Diagnostics, Hyderabad
